

BUSINESS INSURANCE PROGRAM

In small communities, a business is more than a sign or a storefront. It's a familiar face behind the desk. A friend or neighbour at the counter.

Our business insurance program covers a wide range of businesses – from retail and offices to apartment owners, churches, and contractors. In addition to protecting physical assets of your business, we can also provide protection against the potential loss of income. We know that downtime in any business is costly. Our goal is to get your operation back up and running as quickly as possible with the kind of personal claims service that treats you like a neighbour - not a number.

We will provide in-depth, specialized experience specific to your industry, and work with you to understand the exact needs of your business.

We offer specialized knowledge in:

- » Commercial auto and fleet
- » Construction and general contracting
- » Hospitality
- » Manufacturing and wholesale
- » Mining, forestry and marine
- » Real Estate
- » Retail and franchises
- » Municipal and First Nations Governments

Our business and commercial insurance includes:

- » Commercial General Liability
- » Business Interruption
- » Tenants Legal Liability
- » Stock Coverage
- » Stock Spoilage
- » Seasonal Increases
- » Equipment Breakdown
- » Crime Coverage including Employee Dishonesty
- » Employment Practices Liability
- » Blanket Glass Coverage
