

COMMERCIAL MARINE PROGRAM

Marine related industries presents opportunities for both captains and business owners, but it also carries an elevated exposure to risk.

Marine related insurance needs to cover more than just sinking boats or lost cargo. That is why this program offers a wide variety of commercial marine products custom tailored for all types of Aboriginal commercial fish harvesting and processing operations.

Commercial fishing vessels

If you own or operate a commercial fishing vessel, no matter how small, you need specialized insurance to ensure you are covered in the event of an accident or equipment breakdown.

Aquaculture operations

Aquaculture and fish farming is one of the fastest growing industries in today's economy, but it is also very vulnerable to major losses.

Marinas, docks, and wharves

Our tailored program offers coverage for a variety of Aboriginal marine businesses including marinas, boat yards, boat dealers, boat repair, and supply shops. Some of the factors involved include types of properties, the number and type of vessels moored, staff experience, and the location and physical layout of the operation.

Other coverage options include:

- » Cargo insurance
- » Shipbuilder's liability
- » Property insurance
- » Equipment breakdown
- » General liability
- » Environmental impact liability
- » Business interruption
- » Accidental death and dismemberment
- » Legal defence insurance
