Aboriginal Insurance Services Inc.

Insight. Experience. Commitment.

CONSTRUCTION INSURANCE PROGRAM

Construction contractors and project owners require unique coverage that changes as the project moves from conception to completion.

At Aboriginal Insurance Services, our Construction and Bonding program is a one-stop shop for contractors, project owners, and developers. We offer a full suite of construction insurance products and bonding capacity under one facility, all at competitive prices.

We can insure the construction and operational phases of projects of all sizes, in any part of the world, including:

- Infrastructure (tunnels, bridges, roads, ports)
- Buildings (condos, office blocks, stadiums, etc.,)
- Pipelines, water treatment, supply projects
- Hydroelectric power stations
- Civil works

With our program, project owners and contractors can secure a single policy on an insurance or reinsurance basis to cover multiple classes of insurance required during the construction and early operational periods of projects.

We can provide insurance coverage for the following interests:

- Transit
- Marine, marine delay on startup
- Construction
- Advance loss of profits
- Operational (all risks)
- Mechanical and electrical breakdown
- Business interruption
- Third party liability
- Employers liability
- US Casualty
- Esoteric Risk
